**Release eo2024.08**

**June 13, 2024**

## Release eo2024.08 Summary:

Release eo2024.08 is scheduled to be deployed beginning at 6:00 p.m. ET on Thursday, June 13, 2024. This release includes a variety of very minor bug fixes as described below:

### **I. CORRECTED THE WAY E-OSCAR READS ORGANIZATION-DIVISION-UNIT NAMING CONVENTION IN ASSOCIATION WITH ACTIVITY REPORTS AND ARCHIVES:**

This bug fix corrects an issue where the application incorrectly interpreted the Org-Div-Unit naming convention as part of the reporting process, thereby causing reports to not include results, even when they should be. For example, in situations where a Unit name included a dash (for example, "test-unit") the filtering viewed the Unit name as simply "unit". The result of this is that no reporting was rendered because the core parameters for the filter did not match the expected outcome. This bug fix corrects the way the application reads the naming convention to correct this mismatch.

### **II. (API SERVICES): CORRECTION TO ISSUE RELATING TO THE FIND ENDPOINT FOR BLOCK/DR NOTIFICATIONS**

As shared with API-enabled Data Furnishers on May 29, we previously uncovered an issue relating to the /notification/v3/find endpoint where there was a value type mismatch relating to the 'Resolved-Acknowledged' status. This fix corrects the value type mismatch and will allow this endpoint to return expected values.

### **III. MIDDLE NAME ENTRY AND VERIFICATION INDICATOR ERRORS NOT DISPLAYING PROPERLY ON CERTAIN OWNERSHIP DISPUTES:**

This bug fix corrects an issue on Experian-originated ownership disputes where the First Name, Last Name, Middle Name, and Generation Code errors were not displayed correctly when a value was not provided in the Response. This fix corrects that issue; operators will now see error messaging for the those consumer name related Response fields when appropriate.
